Wheeler High school in North Stonington the trustees have been endeavoring to get an adequate supply of pure water for use in the school, and have finally succeeded, through the generosity of Ripley B. Parks, owner of the source of the new supply. The water is from a large spring located near the old mill site, with a capacity of 80 gallons a minute. The water has been analyzed and found to be absolutely pure; the volume is so great that the surplus will be utilized perhaps for industrial purposes at an an etheric substitute containing no al-

After being satisfied as to the quality and quantity of the water, the trustees made Mr. Parks a substantial rental offer for a sufficient quantity of the spring water to supply the school, which was declined. Then followed an increased offer, which Mr. Parks said he would take under consideration, which he did.

When Mr. Parks next met the trustees of the Wheeler school he made a

school, reserving the use of the school, reserving the other 60 gallons of the capacity for his own use. This he gives absolutely free, and for all time. There is provise in the offer that should the school suspend for two successive years, the spring water rights shall revert to the heirs or assigns of Mr. Parks.

The school trustees will now provide for a pumping outfit and a large tank reservoir, and have a pipe line to the school building. Mr. Parks has also offered to give the trustees the privilege of placing on his premises the elevated tank reservoir or any other appliance necessary for the furnishing of water to the school.

Mr. Packs is a lifelong resident of North Stonington and is engaged in the lumber and timber business on a large scale. His generous action is commended by his townspeople and by all friends of the Wheeler school.

BABY'S HAIR ALL CAME OUT

"When my first baby was six months old he broke out on his head with little bumps. They would dry up and leave a scale. Then it would break out again and it spread all over his head. All the hair came out and his head was scaly all over. Then his face broke out all over in red bumps and it kept spreading until it was on his hands and arms. I bought several boxes of cintment, grve him blood medicine, and had two doctors to treat him, but he got worse all the time. He had it about six months when a friend told me about Cuticura. I sent and got a bottle of Cuticura Resolvent, a cake of Cuticura Soap and a box of Cuticura Ointment. In three days after using them he began to inhree days after using them he began to to stop scratching his head. After taking two bottles of Resolvent, two boxes of Ointment and three cakes of Soap he was sound and well, and never had any breaking out of any kind. His hair came out in little curis all over his head. I don't think anything else would have cured him except Cuticura. I have bought Cuticura Ointment and Soap several times since to use for cuts and sores and have never known them to fail to cure what I put them on. Criticura Soap is the best that I have ever used for toilet purposes." (Signed) Mrs. F. E. Harmon, R. F. D. 2, Atoka, Tenn., Sept. 10, 1910.

Health and Beauty Queries

J. W.: Because of a lack of proper nourishment your hair is dull, brittle and splits at ends. The only way in which to overcome this is to massage the scalp vigorously two or three times each week for a while, using a quinzoin tonic. This arouses the suggish circulation and so energizes the scalp tissues and hair sacs that healthy activity follows. The result is dandruff or excess oiliness disappears, the scalp grows soft and pliant and the hair becomes brilliant and fluffy and grows in abundantly. To make the tonic, mix a halfpint alcohol with a haif-pint water and into this pour an ounce quinzoin and your tonic is ready.

R. S.: Impoverished blood causes the tired, worn feeling and that lifeless complexion. What you require is a tonic and energizer to cleanse the blood and tone the system. Get an ounce of kardene at the drug store and dissolve in a pint and a half find without leaving the skin flabby or wrinkled.

Miss X.: Your objection to a wet shampoo because of the work entailed will be overcome if you get a package of canthrox and dissolve a teaspoonful in a cup of hot water, then pour a little at a time on the scalp and massage triskly. This, makes a pleasing and wonderfully clean, and the same thalf cupful sugar and hot water to make a full quart. Take a tablespoon-
